

Charity Golf Tournament During FLIBS 2019

Wrede Consulting and Slam invite you to the third Yachtee Charity Golf Tournament

The Fort Lauderdale International Boat Show (FLIBS) in Florida has been bringing together the who's who of the international yacht industry for 60 years. For the third time, Wrede Consulting and Slam will be hosting a special highlight during the show: The Yachtee Charity Golf Tournament at "The Club at Emerald Hills" on November 2nd, provides the perfect setting for golfing, sharing and networking. All proceeds will be donated to selected charity organizations.

"We are looking forward to welcoming a large number of participants to our third Yachtee Charity Golf Tournament during FLIBS 2019," says Kay-Johannes Wrede, founder and CEO of Wrede Consulting GmbH.

What started out spontaneously from of a spirited mood between Wrede Consulting and Slam in 2017 as a fun tournament with 16 players became a full-fledged golf tournament with 60 participants in 2018.

Up to 100 players from the superyacht industry are expected to take part this year.

"The Yachtee Golf Tournament gives professionals from the superyacht industry as well as captains and crews the opportunity to spend a great day together and make new contacts. In addition, we support organizations that are close to our hearts," says Wrede. All proceeds will be donated to Serve On, It's Our World! and the Blue Marine Foundation. The organizations provide support during natural disasters, for disadvantaged children and for the protection of the oceans. Other sponsors of the charity event are Awlgrip Interlux, Pinmar USA, Cellweaver, Sun King Diamond Coating, Viraver, Edge Yachts, Yachtneeds, Zucker & Partner, Yachtlite and Alexseal. Tickets are available at: <https://yachtee2019.eventbrite.de>. For further information, visit www.yachtee.org or write an e-mail to: yachtee@wrede-consulting.com.

Press Release

About WREDE Consulting

WREDE Consulting GmbH, with headquarters in Hamburg and locations in Bremen, Barcelona, La Ciotat, Rotterdam and Palma de Mallorca, provides independent consulting for coatings from new builds to refits with specialisation in mega- and superyachts. Founded in 1999, the company owes its success to the many years of experience of its independent paint consultants and surveyors, as well as to state-of-the-art, innovative technology.
